Nottingham City Council (Spondon Street, Nottingham) Prohibitions of Waiting and Limited Waiting Bay) Traffic Regulation Order 2026 (TME 7485)

Statement of Reasons

This Experimental Traffic Regulation Order is proposed following the construction of new residential properties on Spondon Street. The existing waiting restrictions and limited waiting bays outside these properties are to be removed. The frontages are predominantly formed by a continuous dropped kerb serving multiple private driveways, with a short section remaining undropped where double yellow lines are proposed. Where the kerb is dropped it is proposed to become unrestricted allowing residents to park outside their homes. Parking by non-residents would obstruct access to these driveways and is already prohibited under existing highway legislation.

The Order also introduces a small extension of the limited waiting restriction outside the florist and nearby shops to maintain short-stay parking availability for customers and support turnover of spaces.

Should this Experimental Traffic Regulation Order be considered successful, the Council intends to proceed with making the measures permanent in accordance with the relevant statutory procedures.

This Experimental Traffic Regulation Order is proposed for the purposes of avoiding danger to persons or other road users, facilitating the passage of traffic, and improving the amenities of the area, as set out in sections (a), (c) and (f) of the Road Traffic Regulation Act 1984.
